

CITY OF SUNDERLAND ASC MISSION STATEMENT

The mission of the City of Sunderland ASC is to be the Swimming Club of choice for all communities in the Sunderland and surrounding area. The Club aim to provide opportunities for Long Term Athlete Development and encourages members to obtain qualifications in teaching and coaching, attend other sport related courses, and for non-swimming members to qualify as ASA Officials.

The Club is primarily a competitive club and members of all ages are encouraged to participate in swimming or swimming related competitive activities such as water polo, diving, triathlon and synchronized swimming.

The Club also recognise that swimming regularly is part of a healthy lifestyle and we will provide opportunities for non-competitive, but coached swimming sessions to be available. We will achieve this by offering:

- The highest standards of teaching and coaching
- To enable each member to develop and achieve their highest potential in the sport of swimming
- Membership which is open to all regardless of gender, creed, race, age or ability
- A development pathway leading on from other learn to swim schemes
